

Álvaro Cabrero Barros

Animation Programmer

Madrid, Spain · alvaro@cabrero.me · alvaro.cabrero.me · [LinkedIn](#)

ABOUT ME

Animation programmer who builds the systems that make game characters move well, in Unreal Engine 5 (C++). Experience in AAA and indie development, bridging technical and artistic teams to raise the visual quality of gameplay. I learn fast and enjoy multidisciplinary teams.

SKILLS

Unreal Engine 5

C++

Unity

C#

Inverse Kinematics (IK)

Physics

Animation Systems

WORK EXPERIENCE

Saber Interactive · Animation Programmer

Madrid · Nov 2023 – present

- Primary bridge between the animation and programming teams, aligning technical and artistic goals.
- Implemented core gameplay mechanics and animations on AAA projects: **Turok: Origins** ([story](#) and [gameplay](#) trailers, [Steam](#)) and the **Untitled John Wick** game ([reveal trailer](#), [Steam](#)).
- Create and refine animation systems, custom Animation Blueprint nodes, and physics and IK for dynamic character and creature movement.
- Build UE5 gameplay in C++, using the Gameplay Ability System (GAS) for abilities and mechanics.

PadaOne Games · Software Engineering Intern

Madrid · Nov 2022 – Jun 2023

AI Behavior Trees in Unity for enemy senses in a stealth game, AR tools for the design team, and legacy code modernization.

Vicomtech · Research Assistant

San Sebastián · Aug 2021 – Aug 2022

Built collaborative AR apps (HoloLens, Android, iOS, PC, Web) with Unity, ARFoundation and React with Three.js for European projects H2020 ARETE, H2020 RESCUER and 5G EUSKADI. Co-author of "Collaborative Augmented Reality Tools for Behavioural Lessons" ([DOI](#)).

Vicomtech · Software Engineering Intern

San Sebastián · Jan – Jun 2021

Collaborative musical AR environment for education in H2020 ARETE, with Unity and Vuforia ([demo videos](#)).

IECISA (CGSI) · IT Intern

Oviedo · Feb – Mar 2020

Application deployment with Docker, system administration troubleshooting and database management.

PROJECTS

LunarPunk · Tower attack game, Unreal Engine 4, C++

[Video](#) · [Source](#)

Programmed gameplay, animations and AI; led the FMOD integration; automated builds with Jenkins; refactored the codebase for performance and robustness.

Game jams

[Madrid in Game](#) (Oct 2023), [Global Game Jam](#) (Jan 2023), [Ludum Dare 48](#).

EDUCATION & LANGUAGES

Master's Degree in Video Game Development · Universidad Complutense de Madrid

2022 – 2023

Bachelor's Degree in Computer Software Engineering · Universidad de Oviedo

2015 – 2021

Thesis: Collaborative Music Environment in Augmented Reality, completed as an intern at Vicomtech.

Spanish (native) · English (B2)
